

## Ruggedized Ground Control Station – as flying is nothing without control

### Rug. Ground Control Station\*

Computer	Atom CPU
OS	Linux or Win.
HDD	128 GB SSD
Power System	12 Volt, 27 Ah
Interfaces, outside	1x USB, 1x GBit network
Interfaces, inside	2x USB, 1x GBit network, 3x RS232
Screen	15" (16:9) 1920 x 1080
Runtime	> 7 h
Temp. range	0 – 55°C
Prot. rating	IP67 (closed), IP63 (open)

### Ruggedized Ground Control Station (GCS)

The GCS gives the operator the flexibility he/she needs. Useable on the table or on a tripod the operator has a solution which works under hot, dusty and even wet conditions. The integrated health monitoring assures system and mission. The open architecture allows the integration of customer specific components.
